

Area Lighting ServiceAvailability

Available on a year-round basis for dusk to dawn the delivery of kilowatt-hours for area lighting, subject to the established rules and regulations of the Cooperative.

Term of Service

The term of service under this schedule shall be by contract for an initial period of at least three years and on a continuing basis thereafter.

Rate

Normal Service:

Normal service is defined as service with aerial feed not more than 150 feet in length using the Cooperative's standard luminaires, lamps and brackets not more than four feet in length installed on existing wooden distribution system poles.

Legacy Lamps

Mercury and Sodium Lamps are designated as "Legacy Lamps." Legacy Lamps will be available at existing lighting installations and will not be available for new lighting installations installed after July 5, 2021. Commencing on July 5, 2021, LED Lamps shall be installed for all new lighting installations. If a Legacy lamp fails, the Cooperative may replace it with an LED Lamp. The Cooperative may require the replacement of a working Legacy Lamp with an LED Lamp if the Cooperative determines it to be consistent with good engineering practice.
